To Whom It May Concern:

As the Project Manager and lead architect of the St. Vincent's/ St. Clair Replacement Hospital, I am writing with great pleasure to recommend the Goodgame Company, Inc. for their Alabama State General Contractor's license.

I first worked with the Goodgame Company 6 years ago on a Medical Diagnostic Building, but it is with the St. Vincent's/St. Clair Replacement Hospital that I have built strong relationships with various members of the company. I have worked with many individuals, with different roles in the company and have been impressed by the professionalism and attention to detail that I have found throughout.

It is also important to mention that the hospital project is a community owned hospital and Goodgame Company has been a major contributor to the communication and coordination between community officials, construction contractors, and the design team. The degree of confidence that is exhibited by St. Clair County, Pell City and the local Health Authority is clear evidence of the quality of Goodgame Company.

At the end, I would like to summarize the Goodgame Company, Inc. is a promising construction company that is knowledgeable, experienced, and a pleasure to work with. Therefore, I strongly recommend the company without reservation and would appreciate your most favorable consideration to their application.

Sincerely yours,

---
