

October 8, 2010

To whom it may concern,

It is my pleasure to recommend Goodgame Company, Inc. for your consideration. During the past year I have had the opportunity to work collaboratively with the owners and representatives of Goodgame Company, Inc. on the St. Vincent's St. Clair Replacement Hospital in Pell city Alabama. The replacement hospital project has been among the most complicated projects with which I have been involved both from a political and construction perspective. Jason Goodgame has extensive knowledge of the local sub contractor / vendor/supplier market and has utilized that knowledge to improve the scope, quality, and cost of the replacement hospital project. Jason's efforts have been instrumental in coordinating the work of local municipalities to ensure that site work and utilities are available. Most importantly, Jason has demonstrated integrity and fairness in his actions with all involved.

If you have any questions or need additional information, please call.

Sincerely,

L. Kirk Allen PT MSHA
