To Whom It May Concern:

The experience of working alongside Goodgame Company, Inc. makes writing a letter of recommendation a breeze.

Goodgame Company's approach to solving complex construction issues reveals their down-to-earth professionalism and time-tested industry acumen. One such example was displayed in the recently completed New St. Clair County Jail wherein their assistance in evaluating prefabricated modular cells—complete with beds, plumbing, windows, and doors vs on-site cell construction enabled the project to save approximately three (3) months on the project schedule. The project was also bid in eight separate packages to accelerate construction and their ability to coordinate the work of multiple prime contractors made for a successful, high-quality project.

It's not only their ability to navigate tight construction schedules, but the keen ability to evaluate different building systems that has provided invaluable insight as our team designed various correctional-facility systems. Their knowledge and attention to detail makes collaboration a pleasure, and that's why we would be glad to partner/work with Goodgame Company again on any project.

Sincerely,  
CMH ARCHITECTS, INC.
